

Speech, Communication and Resilience

Estonia: Pilot testing

Co-funded by the
Erasmus+ Programme
of the European Union

TARTU ÜLIKOOL

Overview

- material was piloted in Tartu, Estonia
- September 10th, 2021
- 8h training day
- 52 participants from different disciplines
 - SLP's (MA degree)
 - orthodont (students)
- pre- and post tests
- 2 lectors

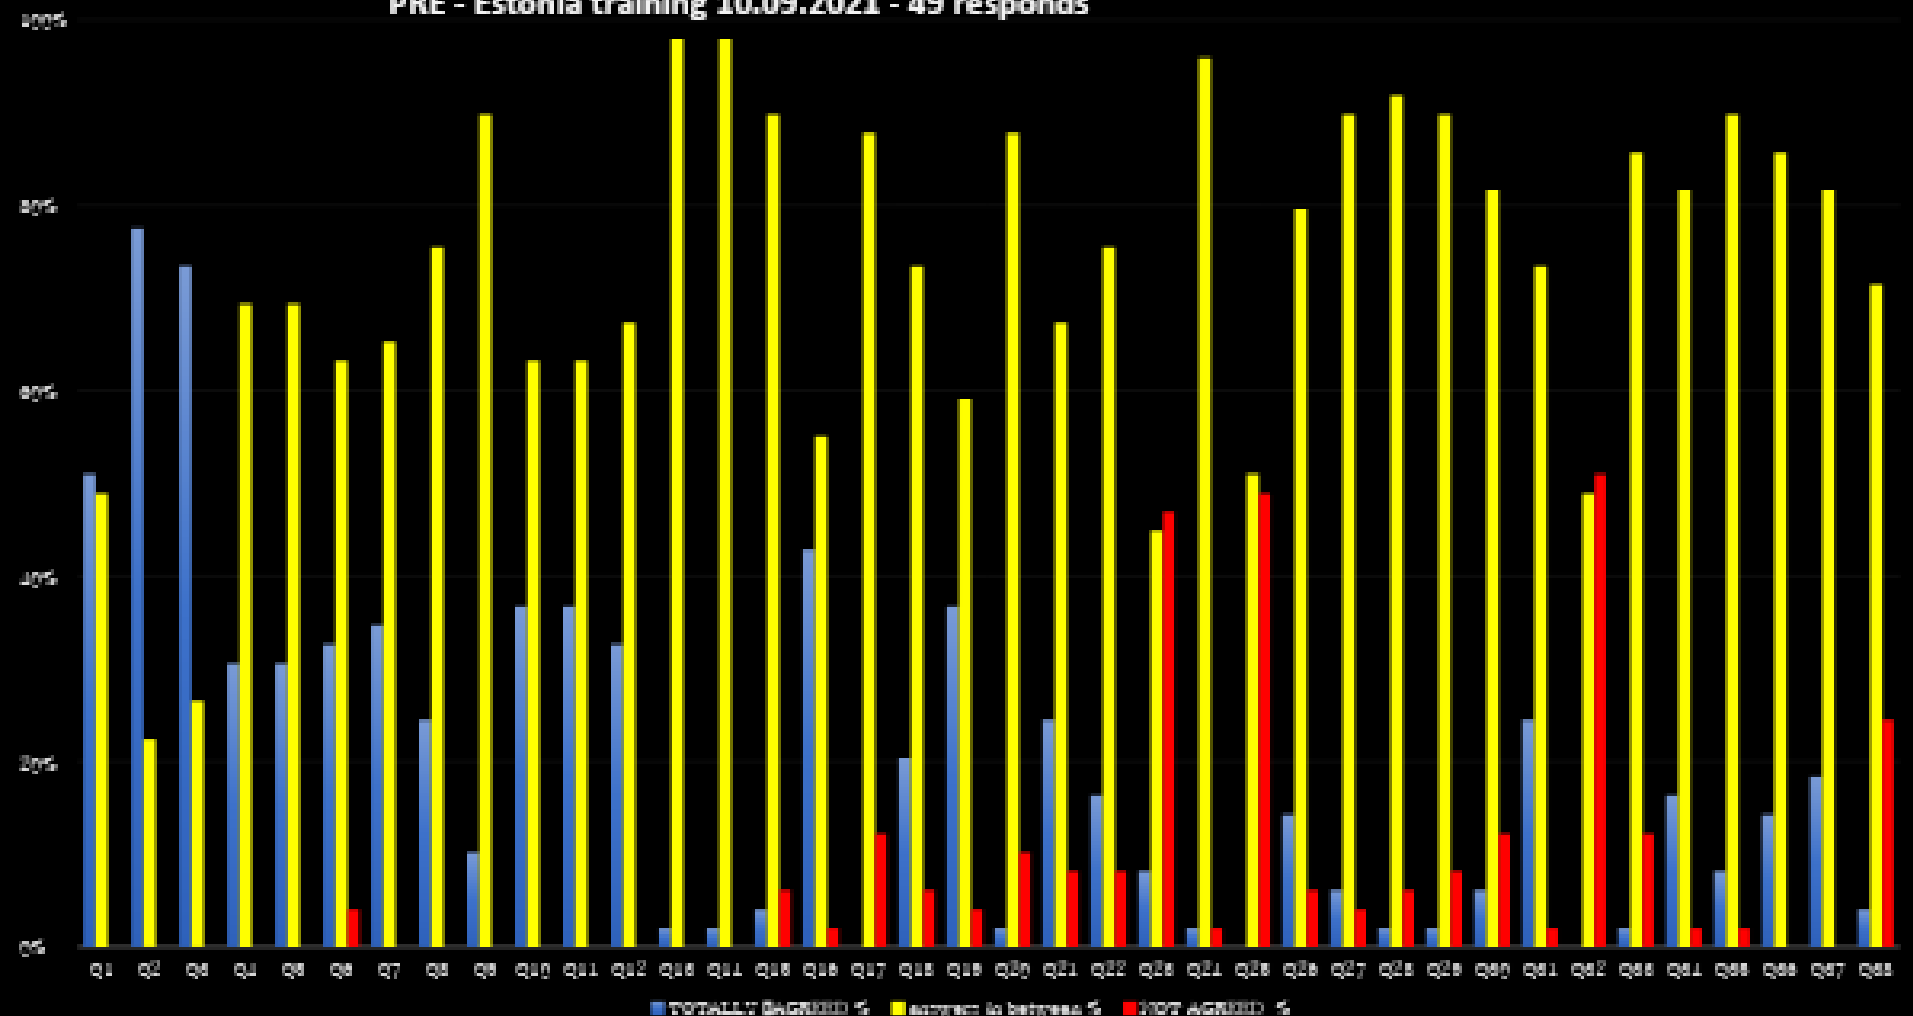

Modules and testing

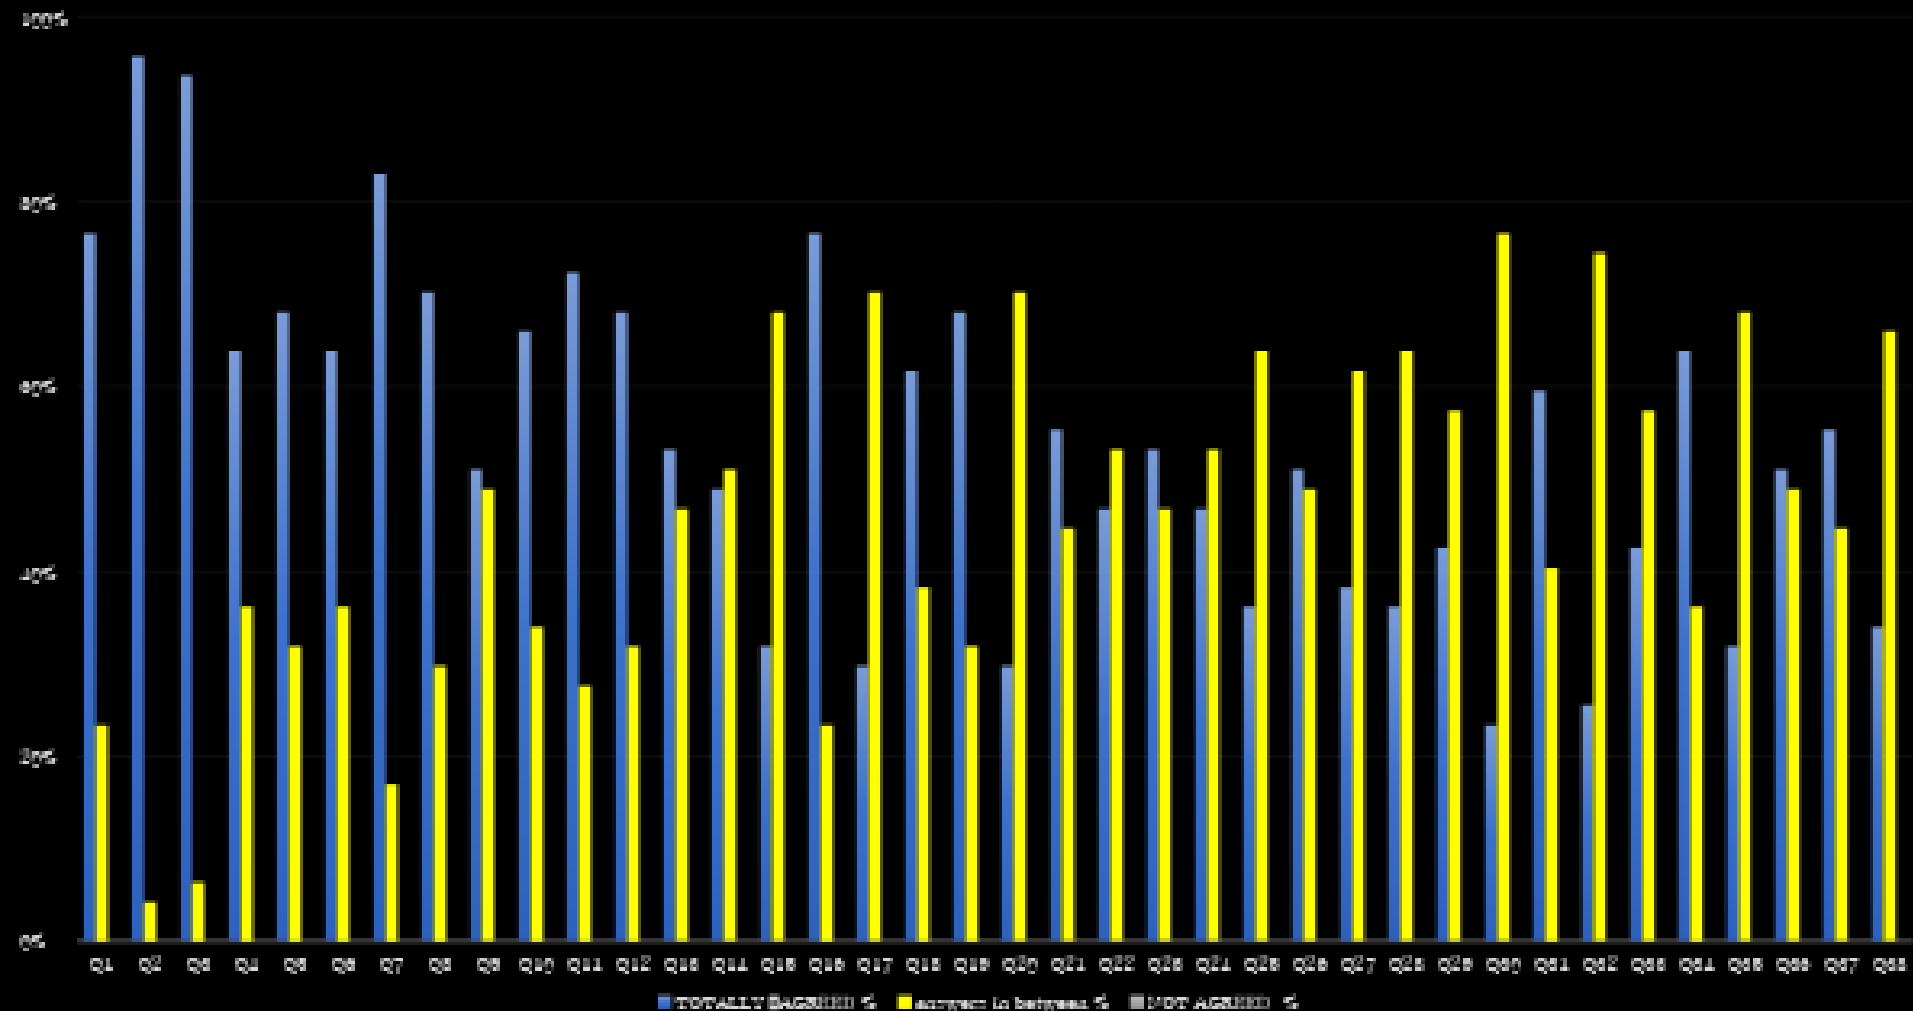

- all 6 modules in both age groups (0-3yrs, 4-11yrs) were translated into Estonian by a professional translator
- all modules were proofread by a speech and language pathologist
 - repetitions were eliminated
 - some cultural and social adjustments were implemented

- pre-test in RedCap 49
- post-tests in RedCap 47
- no comments were added

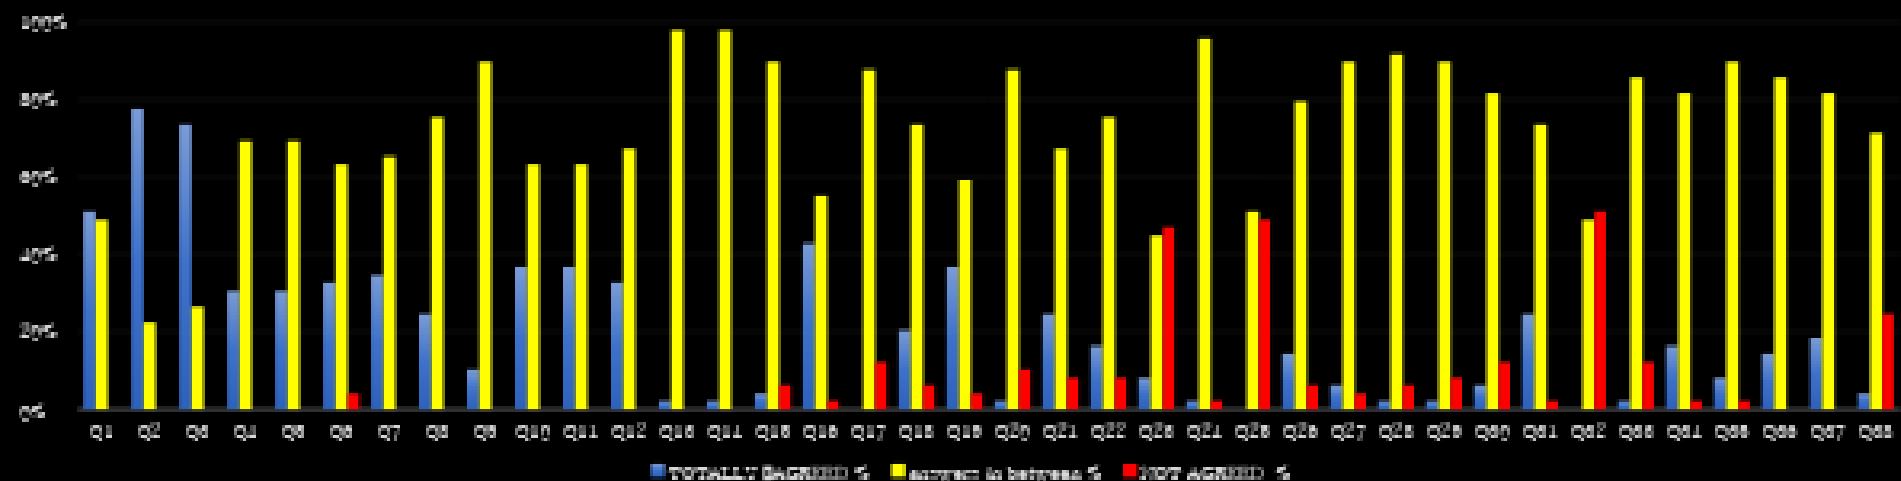

PRE - Estonia training 10.09.2021 - 49 responds

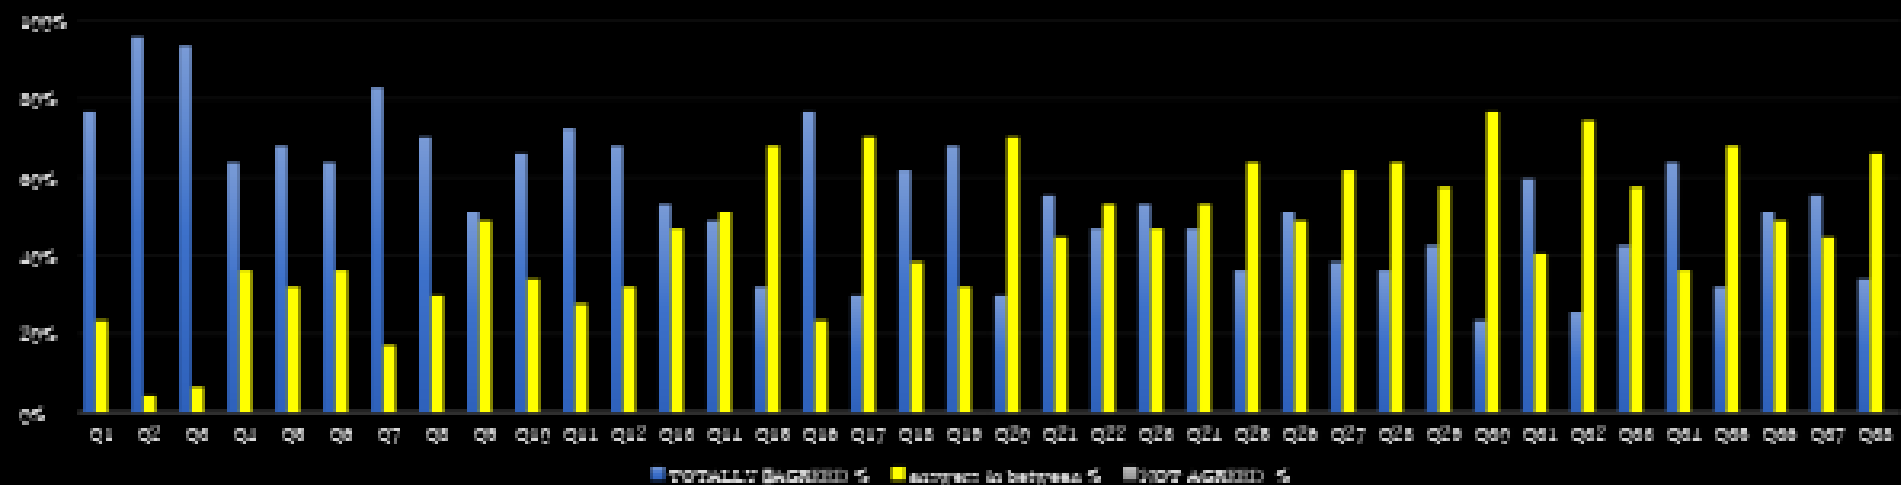

Post - Estonia training 10.09.2021 - 47 responds

PRE - Estonia training 10.09.2021 - 49 responds

Post - Estonia training 10.09.2021 - 47 responds

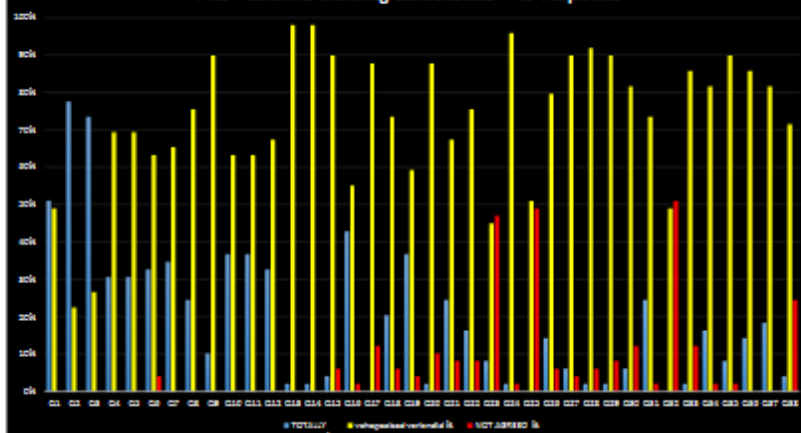

Strategic group recommendations

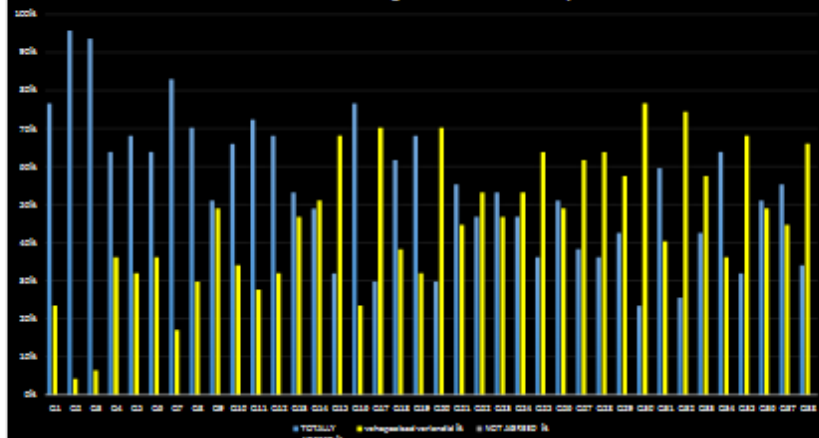

- repetitions
- too little time
- add practical tasks
- add small group discussions

- basic material for SLP's with MA degree
- need for at least 2-days (age groups)
- need to test among non-professional group to get adequate feedback
